To Advertisers.

We shall have a few pages for advertisers in the Wisconsin Almanac and Annual Register, which we hope to issue about the 1st of January. As the pamphlet will be one of great value for frequent reference, it is an excellent medium for advertising. Those who desire to avail themselves of it will do well to make immediate application.

An Endersor for the News,

Not finding a response, among the democratic press in this State, to its denunciatory attacks upon all democrats who refuse to how down and worship Saint Banstow, the Acon invokes the aid of a kindred spirit in Himois, and has succeeded in obtaining a certificate of character from the Chicago Times. In return, as in duty bound, the News vouches for the Times, and thus pays puff with puff; a fair exchange of chesp commodities. That there congenial or gans should lean against each other for mutual support, is most natural; but we marvel a little that the News, even though sadly in want of a prop, should have been foolish enough to publish an article so full of absurd blunders and palpable falschoods as the one which it copies from the Chicago Times. We site a few samples:

Chicago Times. We cite a few samples:

In Milwaukee those are tour or five abolition newspapers, and one sound, sterling democratic sheet. To destroy the latter every possible contraction has been resorted to by the enemy against it. At this time the entire abolitin pack are howing, and columns are devoted to its annihilation. This conduct might have the effect of destroying its influence, of damaging its business, and depriving it of its support, were it not for the fact that it is edited with consummate ability, and by a man who brings to his support, a fremess and a devotion to round principles that has early been surpassed. The News is more than a match for all its competitors. It tours above them in ability. towers above them in shility.

The charming self complacency with which the News hogs itself over this compliment from the Times, is only equalled by the cool contempt with which it and the Times ignore the existence of any other Democratic paper in Milwaukee. Let us inform the Times that there are two other "Democratic sheets" in Milwaukee, the Banner and the Sectore-quite as "sound and sterling," as the News, and vastly more juffuential. As to the statement of the Times, endorsed by the News, that there is a combination among the Republican press to destroy the News, it is too silly Islandood to require contradiction. The News is the best ally the Republican press could desire; and while they have every motive for keeping it up, they have not one for putting it down. The very attacks upon it, about which the Times and the News "howl" in concert, are so many charicable contributions on the part of the Repoblican press, to bring it into notice, and keep the public in mind that such a shoet is published here. If we were to give it a 'severe letting alone,' the News would be the lirst to implore a renewaof hostilities. The only "combination," therefore, has been to austain, not to destroy the News; and we propose to persevere in this labor of love, so long as there is a hope of saving it from shipwreck.

Unving disposed of the Milwaukee press, the Chleago Times proceeds to lecture our Wiscon sin people. We quote again :

We have, in the first place a large subscription We have, in the first place a large subscription list in Wisconsin, and to our subscribers there we claim the right to speak of Wisconsin politics. One year ago the Domocratic party nominated a State tekes: that ticket, with a single excuttor was elected by a rarge majority. The Governor was also elected, but by a vote so chee that the fusionists encested by false affidails and an invariant days before the top to be a chee that the fusionists encested by false affidails and an invariant days a supreme Court, in folisting into power the Republican candidate. Who detented Wm. A. Burstow is as well an asceptiment teated Wm. A. Burstow is as well an ascertaine fact as that his election was contested.

It is only necessary to remark upon the above paragraph, that the Chicago Times, in thus I cliing our Supreme Court, and endorsing the infamous frauds and forgeties by which the Barsti w men sought last fall to defraud the bullot box and deleat the will of the People, proves itself a fitting organ of "Border Ruffisnism" in Illimia and a proper sudorser for the few surviving Bar stow organs in Wisconsin.

The Times, having thus set the people of Wis cousic right about their Governor, and duly re-baked the Republican press of Milwankee, for what they have said about the News, conclude with the following reference to the Sentinel:

Having beaten Barstow and Hadley, they have turned their attention to the demphtion of the Aver. Having wealth they have subshifted the opposition press. The Sentinel on one day burns with zeal in behalf of one of these fellows, and arbenty urges his appointment as Postu as are theneral; the others take it up, and hop-alr. Buchana will appoint the exemplary Dear ocrat, who, though opposed to them in politics they believe to be aminently fitted for the post and then, Sentiael and all, howl aloud agains the only Democratic paper in the city, the Daily

What shall be said to such unscrupulous fabrications? The Sentine has never uttered a word in favor of any man's appointment as Postmaster fieneral, nor have the other "opposition presses" capressed a hope or wish on the subject. The statement is a gross and palpable falsehood, and yet the News, which Anges it to be such, does not besitute to copy and endorse it. The Buchanies journals may quarrel about the Cabinet so their heart's content, without let or hindb mer from 4s. But we advise the Times to extend its acquaincines with the Wisconsin Press, and no longer labor under the delusion that the News 1 the only "sound and starting democratic paper" published here. No wonder that, relying or that alone, it should fall into such ludicrons him ders about Wisconsin politics.

Although Mr. McGarry, in a communication to the News of Saturday, informs that paper and the public that he has had "no notice whatever of any design to cite, or remove him," and exresses grave doubts whether such action, on the part of the Governor, would not be "premature at least," it appears from the Madison Journal of the 18th instant that Mr. McGarry has been cited to appear to day and answer certain charges which have been preferred against him. Of these charges and the individuals by whom they have been preferred, the Journal, in reply

o an or slaught in the Argur, thus speaks: The charges against McGarry are serious ones, ombracing cruelty to the prisoners, wasteful extravagance, misdirection of public money, and general unfitness. Among the men designated as a "pack of Know Nothing harpies," in the above, are a number of quite prominent "Dezco-crata," reveral of whom are foreign born. One of the affidarite is that of Wm. Reinhardt, a

The facts above stated are all the answer needed to the vindictive and concerted efforts of the Milwankee News and Madison Argus, to represent the action of the Governor as prompted wholly by personal and political malice towards Mr. McGarry. So fur from being a victim to "Know Nothing" or "Republican" proscription, it appears that Mr. McGarry's principal accusers are

sen of his own party and of foreign birth. As a sample of the tone and spirit in which the Madison Argus, the "official State paper," and especial organ of the Baratow party, speaks the part of the Governor, we copy a portion of us remarks :

It is wholly and entirely a corrupt and villain-ous scheme of a pack of Know Nothing harpies to oust McGarry, because he was born in Iceland, and they want a chance to steat the State poor! This matter presents a beautiful picture. Mr. Bushford runs for the office of Governov and le deteated. An institution facetiously termed a Supreme Court takes the matter in hand, and Supreme Court takes the institet in hand, and gives him the situation, in spite of the people's decision. At the time that Bashford was defeated for Governor by the people, Mr. McGarry was elected to the office he now holds. The Governor who was made by the Sapreme Court goes on and tunes out McGarry, (if he does it at all), for no other reason than that he is an Irishman. We don't know who will be next attacked by this tool of a week and corrent consecued by this tool of a weak and corrupt concern made up of one-third fool, one-third drunkard, and the other third a very decent reformed man, whose brains the life was long since burned

out of, by deep potations. When it is remembered that the Governor, in entertaining these charges, duly preferred by substantiel citizous against a public officer, is but discharging a duty imposed upon him by the eath and obligations of office; and that the Suter of the gentlemen composing the Supreme Judicial Tribunal of this State, as well as upon the notives and action of the Executive, must disgnat what lew decent and hones; men still cling to the fortunes of the defunct Barstow dynasty. and cause renewed rejoicing among the great temper are reflected in the columns of the Madison Argus.

THE NEWS AND MR. WELLS,-The News of faturday admits that the Sentinel opposed Mr. Walls in 1862 and supported Mr. Denano, the Whig Candidate. Of course it did and we are only surprised that the News was so long in finding it out. As to 1854, the News asserts that the Sentinel "supported Mr. WELLS;" that its editor "so stated at Washington during the speaker contest, to the triends of Mr. Banks," and that "one of the leading Republicans of New York" told the News man in Washington last winter, that the editor of the Sentinel made such "representations" while there. We have only to say, in reply to these Munchausenisms, that they are utterly destitute of truth, and doubtless manutactured, out of whole cloth, by the News, The Senting!, in 1854, supported Mr. Spoonag for Congress and notady else; and if a "lending Republican," or anybody the, told the News man to the contrary, he was either fooling him. or lying about us.

That paper, in reply to some remarks of ours a few weeks ago, says that Barstow would decline a cabinet appointment, because he could not leave his own private business for the place—that his enemies fear it might be tendened to himmand asks, in causife style, how much majority Buchanan would have L, the State if the friends of Barstow had voted for Fremonit.

We are inclined to believe the first proposition. Under the regulations at Washington, an official Buchanan would have it, the State if the friends of Barstow had voted for Fremont.

We are inclined to believe the first proposition. Under the regulations at Washington, an official position holds out no such advantages for stealing as have been realized at Madison for the last term, and it would be difficult indeed to coax one of the "Forly" where a moderate degree of honesty is enforced.

In regard to Buchanan's vote in a certain contingency, we can only judge, of course, by analtogy. Here, in Brown County, where both of Barstow's triends voted for Fremont, we gave Buchanan double the usual democratic vote.—
